

*Abby's take-charge quest for love leads to a hilarious parade of suitors in Random Husband, a heartwarming story of soulmates in the making.*

A recovering lottery winner and avid journalist, Abby doesn't believe in soulmates. What she does believe in is women taking control of their lives. So when her crusty editor demands a juicy series of articles and social-media buzz, Abby promises to publicly find a husband and share her journey with the world—or at least her readers and followers in Savannah.

A motley crew of wannabe spouses parade through a local coffee shop, where the owner, Max, shakes his head in disbelief. What self-respecting man would be part of a media circus? Recently burned by a date turned social-media stalker, Max serves up coffee and a hefty dose of judgement.

When loneliness and libido drive Max back into the dating world, he stubbornly vows to avoid Abby. Other than that one kiss...

One hot kiss. Abby tells herself it was no big deal. She'll get over it. Besides, Max isn't interested.

Abby marches on, encouraging women to create their own marital bliss. She doesn't count on a revolving door of grooms, rushing her toward a catastrophic ceremony to be witnessed by fans and the sexy barista. Nothing can stop the momentum.

Except Max.
